**Clarification Note # 1**

**Request For Quotation (RFQ) No. PR 390877 - Production of eight web-based, TV quality programs in the form of live talk-show to support public debate on reforms in Ukraine**

---

---

In accordance with issued RFQ No. PR 390877 - Production of eight web-based, TV quality programs in the form of live talk-show to support public debate on reforms in Ukraine, the OSCE would like to provide the following clarifications to the RFQ Documents:

**Question 1:** Whether the programs could be done in a live talk show format, but as noted in the Annex are uploaded? So for cost efficiency, it may be better to do all the shows at once?

**Answer 1:** Basically, the show should be recorded in live-simulation format (with no cutting afterwards), true, but we would need to have those programmes reflecting issues that are urgent and bound to the real interest of the public at the moment. So, as I see it, we can envisage a possibility for at least two programmes filmed at a time, but not all programmes filmed in one time, as they should appear on the website once a week by the end of the year.

Sincerely,

Olga Jukova,  
Chief of Fund Administration,  
OSCE Project Coordinator in Ukraine
