Clarification Note # 3

Request For Quotation (RFQ) No. PR 445611 - Supply and Delivery of Acoustic Doppler Current Profiler (ADCP).

In accordance with issued RFQ No. PR 445611 – Supply and Delivery of Acoustic Doppler Current Profiler (ADCP), the OSCE would like to provide the following clarifications to the RFQ Documents:

Question 1: Annex A and B seem to suggest that the purpose of the ADCP is to measure river discharge. In other words not just the speed of the water but also the volume flow. Is this correct?

Answer 1: Yes it is correct.

Please, note that due to ongoing process of collecting information to provide additional clarifications in accordance with the opened Request for Quotation (RFQ) No. PR 445611 – Supply and Delivery of Acoustic Doppler Current Profiler (ADCP), **the deadline for submission of quotations is extended till 11:00 am Kyiv/Europe time, 22 March 2017.**

Sincerely,

Olga Jukova,
Chief of Fund Administration,
OSCE Project Coordinator in Ukraine
