

**RFQ/SMM/50/2018 “Provision of the Open source information management software for the
OSCE Special Monitoring Mission to Ukraine (SMM)”**

Clarification note No2

Question 1:

Could you explain more about the requirement “Hypothesis analysis - the analyst enters hypotheses about the data and reviews the documents that most strongly link to the hypotheses being considered” or provide an example of "Hypothesis"

Answer: “Hypothesis analysis” means if you have, for example, a hypothesis that ‘someone is accumulating certain equipment in a certain area’, the software should help you prove or disprove the hypothesis by linking you to sources, databases etc. pertinent to that hypothesis
