

Questions and Answers (Q&A)

*in relation to the Request for Information (RFI) –
Enterprise Risk Management Software*

No.	Question from the Market Operator	Answer from the Project Team/ Procurement and Contracting Unit
Q&A no. 1 release date: 18 March 2019		
1.	Hello from [name removed -- I am the Managing Director of [name removed], based in the US and Palestine. I am writing in regard to the aforementioned RFI. Would the OSCE be open to receiving proposals for building custom software, or is the opportunity limited to already-developed software? We understand that cost competitiveness would be evaluated.	Our processes are standard and the time and effort for this exercise is limited. Therefore we do not want to engage in building custom software for RM.

END.
