

Clarification Note to ITB SER 01 2021 Express Mail and Parcel Delivery to the OSCE Mission to Serbia

Q1: Considering that provided tender documentation (except Vendor Registration Form) is in English language, is it necessary to fill in and send the templates in English? If not, is there a possibility to provide us with documents in Serbian language?

R1: Please be kindly informed that entire documentation is available only in English language and we kindly ask you to fill in ITB templates in English. Please note that OSCE Mission to Serbia does not insist that bidders translate their status documentation and financial reports onto English. These submissions may be submitted in Serbian language.

Q2: Is it possible to participate at this tender as a consortium member together with Serbian company?

R2: If your partner company with legal residency in Serbia would be the contracting party with OSCE and provider of Express mail and parcel delivery service, please instruct them to address OSCE directly and we will provide them with relevant RFP documentation.
