**Clarification Note No.2**

**Invitation to Bid (ITB) No. UKR/06/2021 - Supply and Delivery of Kevlar Helmets with Ballistic Visors, Large Loop Metal Detectors, Hand-held Metal Detectors and Multi-purpose UXO Detectors**

---

In accordance with issued ITB No. UKR/06/2021 - Supply and Delivery of Kevlar Helmets with Ballistic Visors, Large Loop Metal Detectors, Hand-held Metal Detectors and Multi-purpose UXO Detectors, the OSCE PCU would like to provide the following clarifications to the ITB Documents:

- 1. Q:** The requirements for Technical Specification, LOT 1, Kevlar Helmet PASGT with Ballistic Visor state that the helmet shall be delivered in size large (L) and Extra Large (XL). Different manufacturers apply different divisions into sizes. Uniform standard is missing. Requests that the size instead is specified based on which size of head size it should fit.

**A:** The uniform standard sizes of helmet does not exist. Based on the research of the sizes of majority of western producers we ask for the Kevlar Helmet PASGT with following sizes:

Large (L) – Head circumference 58-62 cm;

Extra large (XL) – Head Circumference 62-66 cm.

Kind regards,

Emina Šibić-Marjanović,  
Chief of Fund Administration,  
OSCE Project Coordinator in Ukraine
