SUBJECT: Clarifications to the ITB No. 05/2011- Supply and Delivery of 4WD Motor Vehicles and Provision of Related Services to the OSCE – Clarifications Note 1

PAGES: one (1)

In accordance with Clause 8 “Clarification of Bidding Documents” of Section I “Instructions to Bidders”, the OSCE would like to provide the following clarifications to all prospective bidders:

Question 1: Potential bidder requested OSCE to indicate the volume of vehicles OSCE is expecting to purchase throughout the 5 year contract period.

Answer 1: The objective of this tender is to enter into Corporate Window Contract with the Successful Bidder. The OSCE Secretariat located in Vienna and/or the OSCE missions/institutions will be issuing the individual Purchase Orders to the contractor(s) on an “**as and when**” required basis therefore it is not feasible to provide volume of the vehicles

Question 2: Potential bidder requested clarification if more than one model can be offered per Lot.

Answer 2: Yes the bidder is allowed to offer more than one model per lot. In that case for each model offered under specific Lot(s) Technical Proposal Forms as per Section III of the bidding document should be completed

Question 3: The bidder requested the OSCE to clarify if the bid can be submitted in US Dollars as well as in Euro.

Answer 3: Bid prices must be quoted in EURO.

Question 4: The bidder requested the OSCE to clarify if the Manufacturer's Authorization form (section III-C) is mandatory.

Answer 4: In the case that Manufacturer's Authorization can not be received, any documents evidencing that the bidder is authorized dealer /distributor or partner will be accepted.
