

ANNEX 01

THE AMOUNT OF THE OBSOLETE PESTICIDES BURIED IN THE NUBARASHEN BURIAL GROUND BY THE NOMINAL LIST

Total amount is 512 tons, out of which:

1. DDT – 192,5 tons
2. Endobacterin – 33,121 tons
3. Fenthuram – 6,765 tons
4. Dalapon – 17 tons
5. Hexachlorocyclohexane – 48,396 tons
6. Simazine- 18,117 tons
7. Cossan – 2.693 tons
8. Granosan – 8,402 tons
9. TUR – 1,280 tons
10. Thovit – 1.810 tons
11. Cynox – 0,096 tons
12. Liquid soap – 0,289 tons
13. Hexachlor benzene – 1,265 tons
14. Dichol – 0,168 tons
15. Pentachlor phenol – 8,715 tons
16. Lissapol – 1,878 tons
17. Diamine phosphate – 5 tons
18. Chlorophos – 1,695 tons
19. Sevin – 1,846 tons (Carbamate, Carbaryl Sevin, etc)
20. Cossan – 1,498 tons
21. Cyneb – 16,374 tons
22. Colloid sulfur – 17,950 tons
23. Metaldehyde – 0,1 tons
24. Calcium arsenic – 42,640 tons
25. Tobacco packs – 5494 packs
26. BIP- 5,160 tons (Biological insecticide preparation)
27. TMTD -7,205 tons (tetramethylthiuramdisulphide, known also as Aatiram, tiram, etc)
28. Paris Green – 0,239 tons
29. Vitriol – 7,318 tons
30. Dendrobacilin -9,815 tons
31. **Rezetoph** – 17,1 tons
32. DNOC – 0,890 tons (dinitrocresol)
33. Trichlor sodium acetate – 4,98 tons

The list includes also other pesticides containing arsenic, sulfur, phosphor, cyanides and mercury – approximately 30 tons
