Clarification Note # 1

Request for Quotation No. PR 353478 - Development and production of audio-visual educational documentary video film about stages and procedures of radiological control of cargo, vehicles and luggage by state inspectors at the automobile checkpoints of Ukraine (in Ukrainian language)

In accordance with issued RFQ No. PR 353478 - Development and production of audio-visual educational documentary video film about stages and procedures of radiological control of cargo, vehicles and luggage by state inspectors at the automobile checkpoints of Ukraine (in Ukrainian language), the OSCE would like to provide the following clarifications to the RFQ Documents:

Question 1: To be competitive, all bidders should have a concrete information about actual procedures of radiological check-up at the border, because it should be in scenario. Could you please provide us with this information?

Answer 1: The procedures of radiological control at the border are described in legislative and regulatory acts, in particular Order no 204 of the Ministry of Environment of Ukraine with attachment to it that can be found at <http://sfs.gov.ua/zakonodavstvo/mitne-zakonodavstvo/nakazi/62424.html>. All bidders are invited to refer to this document while preparing the scenario.

Sincerely,

Olga Jukova,
Chief of Fund Administration,
OSCE Project Coordinator in Ukraine
